Interesting Reform to Be Proposed to Legislation.

Representative Anron Johnson of South Manchester gives notice that he intends to introduce a bill in the incoming legislature making it compulsory for manufacturers to sell food products in Connecticut by net weight, whether in jars, boxes or carrons. He

"I am preparing a bell to be intro-duced in the next general assembly concerning the net weight on packages of food products. People have a right to know what they buy and they also should have a right to know what they pay for what they buy. This bill will be introduced for that purpose.

"To place upon the packages net "To place upon the packages nel weight would be of the greatest value to the communer who now has to take the package without knowing how

PUTNAM

Agricultural Society's Park to Be Decided Upon Soon-Wandering Grafton Girl Returned to Home-Theater Party for Pupils.

Whether or not there will be another Putnam fair may be determined at a meeting of the stockholders of the Putnam Park and Fair association called for next week. This important meeting was postponed from previous dates, but it will probably be held Monday. There are undoubtedly many who would like to see the fair continued along the present lines of manageued along the present lines of management, but there are also interested persons who believe that it would be well not to do so. It is understood that if there is a decision not to continue the fair the association may elect to despose of the property to man who to dispose of the property to men who

stand ready to purchase.

One suggestion that has been heard relative to what would be done with the park if it is sold is that it would be given over to the holding of varied amusement enterprises including base-ball races track average analysis. ball, races, track events, vaudeville

Conducted as a private enterprise along the lines sugyested, there is what is believed is a good opportunity of mairing the park a money maker. It has one of the best half mile tracks in this section of New England, affording opportunity for light harness events, motor races, and other track sports, has good buildings and many other assets that might be utilized by a live manager to produce satisfactory returns. Whitether the fair be continued by the continued of the continued o ued or not, the charges are in favor of the park being kept in use.

ANOTHER NURSE

Secured by Bristel Visiting Nurse Association.

The Visiting Nurse association of Bristol has found it necessary to se-cure an additional nurse to assist Miss May Comstock, the demands upon her time being more than it was possible for her to meet. For the past few weeks she has been kept extremely busy. She will be assisted by Miss Lena Wood who was a classmate of Miss Comstock in the Connecticut Training school for nurses connected with the New Haven hospital. She has had five years' experience in Waterbury. She began her duties Wednesday. Miss Wood is a Bristol girl.

To Brighten Cut Glass

Soap leaves a greasy film on glass which is hard to remove; the following method of washing will, however, make glass crystal clear.

Take a wooden tub, or pad the metal sink with soiled glass linen towels or any soft piece of cotton. Wash the glass in warm suds, made by dissolving a teaspoonful of Gold Dust washing powder in a pan of hot water; use a soft brush to clean surface, then rinse in water of the same temperature. After the glass has been carefully dried on glass linen, use a camel's hair brush to polish the cut surface. Clean the inside of water bottles with a very thin glass linen towel.

The Crawford Gas Ovens are safe. They are lighted in a new way; there is no dangerous pilot light and explosions are impossible. This improvement is patented and very important.

The Damper is automatically opened by opening oven door to light the burners, which cannot be lighted until the door is opened.

In these Gas Ovens there is an extra set of burners at the top for broiling; a great advantage over the ordinary gas oven, insuring better broiling and great convenience,

The Oven Bottoms and Racks are cast iron, and the outer walls are triple-an interlining of asbestos between two sheets of iron, which assists to retain the heat.

The use of these Gas Ovens does not interfere in any way with the operation of the coal range—both can be used at the same time.
